

## Curriculum Information – Year 4 Spring Term 1 2025

### English

In English this term we will be looking at writing a range of texts, however we will be focussing primarily on writing a narrative text, as part of our learning on Roald Dahl's *Esio Trot*. We are also hopefully going to have a visitor in class of a pet tortoise for us to meet and learn about!

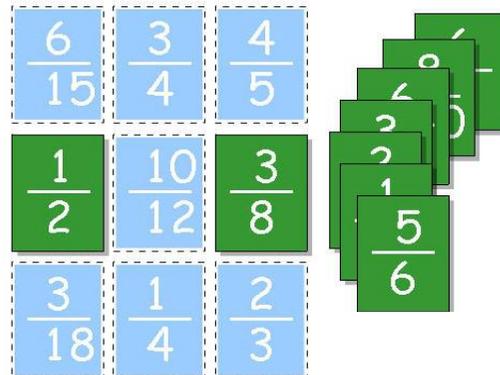

In guided reading, we will be looking mostly at a range of texts, focussed on previous areas that we have learned about, including the Vikings and the Stone Age, as well as States of matter and Rivers, to help us to retain the knowledge that we already have, as well as

developing our vocabularies and our knowledge of different text types. We are going to be working on developing our reading stamina, looking at longer texts. We will be having lots of opportunities to read for pleasure as well, to help us to develop our reading fluency and reading speed.

**Please encourage your child to read regularly at home, to broaden their vocabulary, and to help give them ideas to use in their own writing. Children are required to read 5 times per week at home.**

### Maths

The focus will be on consolidating our knowledge of the formal written methods for all four operations, as well as developing our times table knowledge, as well as length, perimeter and fractions.

### History

We are learning about the history of Skegness, and how and why it has changed over the years.

### Science – Animals inc Humans- Teeth and digestion

We will be learning about how to take care of our teeth, and how our teeth are adapted to help us with the food we eat. We are going to learn about how our bodies digest food as well.
