subordinating conjunction

dependent on the speed at which the bike is set.

a paragraph describing the benefits of the product

## Drawbacks

sub-heading

The Oset 20.0 retails at approximately £2,400 which **could** be deemed quite costly when compared to a petrol bike of a similar specification. **However**, when you remove petrol costs, **maybe** this bike is not quite as pricey as it appears.

modal verb to express possibility

adverb making an opposite point

modal verb to indicate possibility, makes the writer sound reasonable

Being limited by a battery life of 1-2 hours, longer trails and competitive races **may not** be possible for the user. Petrol bikes can arguably be used for a greater amount of time **and** enable the user to compete in several races. **However**, being able to ride without the noise of an engine, offers a more sociable **off-road** experience for the user.

hyphen

## Summary

sub-heading

The Oset 20.0 has many positive elements to ensure that children have an enjoyable riding experience **and** parents are at ease knowing their children are able to ride safely. The cost implications **could** be a negative factor for many, **but** with safety being a priority for all parents, it **would** seem that the Oset all electric 20.0, would be the ideal purchase for all those dirt bike fanatics out there.

co-ordinating conjunction

modal verbs to indicate possibility
