Parent Comment - The care provided by the team operating from Holy Trinity Tattershall so far has been exemplary, and I look forward to the ongoing support your service provides.

## What is Wraparound Care?

Wraparound care, as offered by JB Sport + Education, is an **innovative** childcare solution designed to accommodate the demanding schedules of modern families. Operating from school sites, this service eliminates the need for parents to shuttle their children between different locations, providing a more **seamless** and **convenient** experience. Beyond merely extending the hours of traditional childcare, JB's wraparound care **enriches** the children's daily routine with activities that not only **entertain** but also **support** their educational and personal development. By integrating enrichment activities, children are engaged in a holistic environment that complements their academic learning while providing a **dependable** and **flexible** solution for working parents. This approach ensures that children are not only cared for but are also given opportunities to grow and thrive outside the conventional classroom setting.
