

Knowledge Organisers

These one page, fully editable knowledge organisers have been put together to support teachers when introducing a topic to their pupils. All of the knowledge organisers work alongside Oddizzi's schemes of work, pathway document and the year group vocabulary and glossary banks.

Suggested Use

- Encourage prior research
- Discussed as a class at the beginning of a topic
- Stuck into books to refer back to throughout the unit
- Displayed in the classroom for reference
- Setting expectations for vocabulary to be used by pupils in their learning

Structure

Each organiser contains:

- A **summary** of what will be covered in each unit of study
- **Key Facts**
- **Key Knowledge**
- A **vocabulary list** split into three helpful categories: place names, geographical terms and processes and locational terms
- Key **glossary terms** chosen from Oddizzi's Progression in Vocabulary document
- Pictures

Please note: as this resource is a fully editable Word document, the layout may shift slightly depending on the version of Word you have opened it with. The same applies if you choose to add/edit/delete anything in the document.

Knowledge organiser – Continents and Oceans

What will we be learning?

- Understanding where I am in the world.
- Locating the seven continents.
- Locating the five oceans.
- Human features of the continents.
- Physical features of the continents.

Key facts

The seven continents:
Antarctica, Africa, Asia, Europe, North America, Oceania and South America.

The five oceans:
Atlantic, Arctic, Indian, Pacific and Southern.

Key knowledge

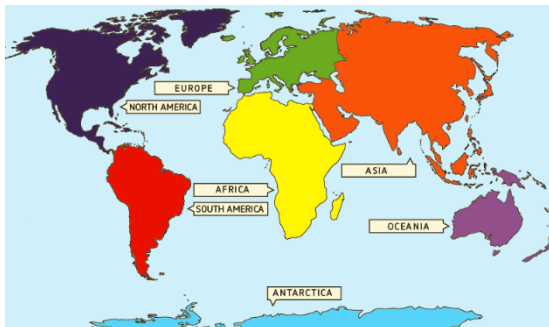

The world is made up of many countries. The countries can be grouped into continents.

The large amounts of water between each continent are called oceans.

Some of the continents are joined by land. Others are separated by oceans.

Human features are made by people.

Physical features are created by nature.

Place names	Geographical terms and processes	Locational terms
Australia Brazil China Egypt France India Spain United States of America	atlas continent globe human ocean physical	east hemisphere north south South Pole west

Glossary

continent: *a very large area of land*

hemisphere: *half of the globe*

ocean: *a huge area of salty water*
